

# AARON DUKE

## Front-End Web Developer

Focussed on creating impactful, user-friendly websites and web apps.

My enthusiasm for front-end web development, combined with my background in hospitality management, has equipped me with exceptional abilities in problem-solving, communication and organisation.

With a natural aptitude for quick learning, I am eagerly seeking the ideal opportunity to advance my career. I am also open to relocation.

### CAREER HISTORY

#### Aaron Duke | *Freelance Web Developer*

2019 - Present

#### Dick White Academy | **Brochure Website**

- Built using Astro & Sanity headless CMS.
- Wireframed & designed in figma.
- Cross-browser compatibility.
- Mobile-first responsive design.
- Sass styling using BEM naming conventions.
- 100 lighthouse score for all categories.
- Collaborated with the client directly.

#### Audiophile | **Ecommerce Website**

- Built using React, Stripe & Sanity headless CMS.
- Stripe integration.
- Cross-browser compatibility.
- Mobile-first responsive design.
- Sass styling using BEM naming conventions.
- Developed from Figma design.

#### Onoglams | **Shopify Ecommerce Website**

- White-label agency project.
- Built using Shopify & Shopify Liquid.
- User login / order history
- Sass styling using BEM naming conventions.

#### Little Kitchen Pantry Ltd | *General Manager*

2017 - 2022

Created and maintained the company's website using Gatsby.

I enhanced my skills in leadership and management, and continued to develop exceptional communication skills, for effective interaction, with both customers and colleagues. I also gained valuable experience in account management.
